REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

While Onoyama et al. shows a device for conveying articles with an array of rollers, a plurality of motor-driven units for the rollers, and a control unit which acts on the motor-driven units and is able to control the motor driven units in such a way that the motor driven units are divided into at least two sets which move at different speeds and in such a way that the line between the first and second sets may be selectively displaced, it does not include the storage device with a plurality of mobile shelves set substantially on top of one another which is arranged to receive articles from the rollers. Furthermore, there is no suggestion in the art to combine the conveyor of Onoyama et al. with such a storage device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
